MAHARAJA RANJIT SINGH COLLEGE OF PROFESSIONAL SCIENCES, INDORE

Various events attended by Teachers & Students in last five years (2016 -2021)

Name of Teacher	S.No.	Name of Event	Date
Conferences			
Dr. Sheetal Bhasin	1	60th Annual Conference of Association of Microbiologists of India & International Symposium on Microbial Technologies in Sustainable Development of Energy, Environment, Agriculture and Health, Central University of Haryana Mahendergarh, Haryana	15-18 November 2019
	2	National Conference on "Recent Trends in Life Sciences" (RTILS- 2019) organised by Late SD Patil Alias Baburao Dada Arts. Commerce and Late MD Sisode Science College, Shindkheda, Dhule	18 January, 2019
	3	XV Annual Convention of BRSI and International Conference on "Biotechnological Research and Innovation for Sustainable Development", CSIR ICT Hyderabad.	22-25 November, 2018
	4	58 th Annual Conference of AMI and International Symposium on Microbes for sustainable development: Scope and Applications, Babasaheb Bhimrao Ambedkar University, Lucknow,	16-19 November, 2017
	5	International Conference on "Current Trends in Biotechnology" organized by School of Biosciences and Biotechnology, Vellore Institute of Technology, Vellore and, Biotech Research Society, India,	8th to 10th December 2016
Dr. Dipak Sharma	1	Multidisciplinary National Conference- VISHLESHAN "Emerging Trends in Management - New Perspectives and Practices"	17 March, 2018
	2	Silver Jubilee Conference on " Study of Matter using Intense Radiation Sources & Under Extreme Conditions" organized by UGC- DAE Consortium for Scientific Research, Indore	3-6 November, 2016
	3	National Conference on Recent Trends in Sciences, Engineering & Management (NCRTSEM) organized by College of Engineering & Technology, Bikaner	21 October, 2016
	4	National Conference on "Developing Strategies and Institutions for Mahseer Conservation in India" organized by School of Biotechnology, DAVV, Indore.	9-11 September, 2016
	1	International Conference on Photobiology, Phytochemistry and Plant Biotechnology	8-9 May, 2019

Dr. Monica Jain	2	Interdisciplinary Research and opportunities in Science, Technology Management and Social Sciences, "Sanmantrana" Organized by Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore.	4-6 February, 2019
	3	5 th National Conference on Recent trends in Plant Biotechnology and Bioprospecting, at VISM, Gwalior	20-21 December, 2018
	4	"Frontiers in sustainable Agriculture" DAE-IBRNS Life Sciences symposium; Organized by Bio-Science Group, Bhabha Atomic Research Centre, Trombay Mumbai	26-28 April 2018
	5	3rd International Young Scientist Congress at Mehsana Urban Institute of Sciences, Ganpat University, Mehsana, Gujarat	8-9 May, 2017
	6	"Master of the Ceremony" in National Conference on "Developing strategies and Institutions for Mahseer conservation in India" organized by School of Biotechnology, Devi Ahilya University, Indore, India	9-11 September, 2016
	1	One Day Convention on "Digitalization and HR Readiness" organized jointly by Indian Society for Training & Development (ISTD) Indore Chapter and NHRD Indore Chapter at Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore	15 December, 2018
Dr. Mandeep Gill	2	National Conference, "Sagar Meridian 2K19" on "Impact of Dynamic changes Happening in India in Technology and Management Sector on Global Economy", organized jointly by Sagar Group of Institutions (SIRT/SIRTS/SIRTE) and Bhopal Management Association, Bhopal	19-20 April, 2019
	3	Session Chair, for technical session titled "Human Resource Practices for Business and Entrepreneurial Practices", at the 13th PIMR International Conference on, "Business and Entrepreneurial Practices for Global Prosperity and Happiness", Prestige Institute of Management and Research, Indore	9-10 February, 2019
	4	1st National Conference on "Innovation and Challenges in Business Management: Socio Economic Perspective", Aryabhata College of Management, Ajmer, Rajasthan.	8 September, 2018
	5	Participated in the Second PIMR Best Research Paper Contest in 12th International Conference on, "Entrepreneurship, Innovation and Good Governance for Global Leadership", Prestige Institute of Management and Research, Indore	11 February, 2018
	6	Conference on "Skilling India: Shaping the Future", A Regional Convention organized jointly by ISTD Indore Chapter and NHRD Indore Chapter at Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore	30 December, 2017
	7	11th International Conference on, "Drivers for Global Competitiveness", Prestige Institute of Management and Research, Indore	4-5 February, 2017

	8	Conference on, "Human Potential and Demographic Dividend: Challenges and Opportunity in Training and Development". A Regional Convention organized jointly by ISTD and NHRD at Shri Vaishnav Vidyapeeth Vishwavidyalaya	19 November, 2016
Ms. Shifa Goyal	1	Shodh - 2020 4th Doctoral Conference on Impact of Research on Society: Evolving Perspectives	04 July, 2020
Dr. Fatema Matkawala	1	31st MPCST Young Science Congress, SGSITS, Indore	28-29 February, 2020
	2	XV Annual Convention and International Conference of BRSI on "Emerging Trends in Biotechnology for Waste Conversion". CSIR-NEERI, Nagpur	8-10 October, 2017
	3	National Conference on "Developing Strategies and Institutions for Mahseer Conservation in India" organized by School of Biotechnology, DAVV, Indore.	9-11 September, 2016
Dr. Mukesh Patidar	1	Current Scenario in Science and Technology: Facing the Challenges and Creating Opportunities, Mohanlal Sukhadiya University, Udaipur	14-16 October, 2019
Dr. Lal Kumar Chandel	1	Online International Conference on " Smart Materials: Application to Devices" organized by Department of Physics & Department of Electronics, Kamla Nehru Mahavidhyalaya, Nagpur,	17 -18 May, 2021
	2	National Conference on Study of Matter using Intense Radiation Sources and under Extreme Conditions	3-6 November, 2016
Dr. Manoj Joshi	1	International Conference on Innovative Practices in Education organised by Bhabha National Research Academy, Gujarat, India	21-22 December, 2017
Geeta Suri	1	National Conference on COVID-19: Post Lockdown Challenges and Opportunities organised by Chameli Devi Institute of Professional Studies	9-10 May, 2020
Shashwat Nigam	1	Current Scenario in Science and Technology: Facing the Challenges and Creating Opportunities, Mohanlal Sukhadiya University, Udaipur	14-16 October, 2019

In vitro conservation of Apocynaceae rare and endemic plant species of Indian Thar Desert

Suman Parihar

Department of Botany, JNV University, Jodhpur, India

Glossonema variance and *Caralluma edulis* are endemic, edible and nutraceutically important plant species of the extreme arid regions of the Thar Desert. They belong to the family Apocynaceae (earlier known as Asclepiadaceae) and their common names are Pimpa and Dudha. Due to increased anthropogenic activities, habitat destruction and grazing of complete plant prior to reproductive maturity restrict the natural propagation of these plants. Hence there is need for development of non-conventional methods for propagation and conservation of these important plants. To establish the *in vitro* propagation protocol of *C. edulis* we have used nodal shoot segments (3-4 cm long) for initiation of culture in liquid as well as semisolid Murashige and Skoog (MS) medium. Bud break was observed earlier (within 7-10 days) on liquid MS medium as compared to semi solid MS medium (18-20 days). Shoots were multiplied through subculture of explants on different concentrations of 6-benzyladenine (BAP) alone and in combination with auxin (IAA). For induction of regenerative callus of *G. variance*, shoot segments were used as explants and regeneration and multiplication of shoots was attempted. Different parameters were studied for induction and proliferation of callus from the explants like, effect of different concentration of sucrose, PGR and different strength of salts of MS medium. The best response was observed on full strength MS medium containing 2.0 mg/l² 2, 4-D with 3% sucrose. All the *in vitro* generated plants of *Glossonema variance* and *Caralluma edulis* are successfully hardened in the Green House and transferred to the nursery.

Impact of magnetopriming with pulsed electromagnetic field on plant growth and yield of durum wheat: a field study

Sachi Singh¹, Kshitij Bhushan¹, Yashvi Pawar¹, Prakash Malviya²,
Sunita Kataria³, S. V. Saiprasad², Monica Jain¹

¹Department of Life Sciences, Maharaja Ranjit Singh College of Professional Sciences,
Hemkunt Campus, Khandwa Road, Indore-17 (M.P) India

²ICAR-Indian Agricultural Research Institute (ICAR-IARI) Regional Station, Indore-452001 (M.P)

³School of Biochemistry, Devi Ahilya Vishwavidyalaya, Bhanwar Kuwa, Indore- 452001 (M.P)

Researchers have approved the use of magnetic field as a new pre-sowing physical seed priming method which is environmental friendly technique. The experiment was conducted to study the effect of magnetopriming with pulsed magnetic field (PMF) on germination and early growth characteristics under control laboratory plant growth and yield of durum wheat (*Triticum durum*) under ambient field conditions. The seeds of durum wheat were treated for 60 mins (4 min on time and 3 min off time) with 4 different frequencies of PMF (50mT, 100mT, 150mT and 200mT). The results revealed that there was significant enhancement after magnetopriming by PMF in seed germination and early seedling growth parameters (root and shoot length and vigour indices) under laboratory conditions as compared to untreated ones. The stimulatory effect of PMF pre-treatment of seeds also persisted in wheat plants under field conditions till its maturity, where it stimulated vegetative growth and biomass accumulation as compared to their untreated ones which resulted in high yield of durum wheat in terms of higher number of tillers, grain yield, grain weight and harvest index. It indicates the positive influence of magnetopriming by PMF. Our results suggested that pulsed magnetopriming is effective in dry seed priming treatment for seed invigoration and higher yield in durum wheat.

ICPPPP-2019

International Conference on Photobiology, Phytochemistry & Plant Biotechnology

Effects of Six Weeks Pranayama on Lung Capacity of Kabaddi Players

Dr. Nilesh Mandloi

Sports Officer, Maharaja Ranjit Singh College of Professional Sciences, Indore (M.P)

Introduction: Yoga is a life of self-discipline. Yoga balances, harmonizes, purifies and strengthens the body, mind and soul. It shows the way to perfect health, perfect mind control and perfect peace with one's own self, the world, nature and God. Yogasanas not only work to bring fitness and vigor to physical body, but also harness our will and emotions to improve our power of analysis, insight and vision. They calm the mind and steady the emotions, still not losing the sharpness of intellect, which is the key to human progress. The science of yoga is dedicated in helping people to change their personalities and life styles. The word pranayama is formed by two words i.e. PRANA and AYAMA. Prana means a subtle life force, which provides energy to different organs (including mind) and also controls many vital life process (e.g. circulation, respiration etc.) Ayama signifies the voluntary effort to control and direct this Prana. Breathing is one of the vital activities governed by Prana on a gross level. This is the only Pranic activity available to us, which can be regulated voluntarily. Secondly, this system (Pranic activity) is linked with the nervous system (based on the mental activity) on one hand and the mind (Consciousness) on the other. Yoga has taken best advantage of this situation, considering that the mind could be controlled effectively with the voluntary regulation over breathing. Pranayama is more important because it produces deeper effects as far as the physique is concerned. The effects of asana are superficial in nature whereas the pranayama is deeper as far as the outcomes are concerned. In simple words it could be said that asana are more linked with muscular system, whereas the pranayama is

Trends, Issues & Challenges in Physical Education / 99

concerned with nervous systems of the body. It is a very important tool in yoga to quiet the mind. Pranayama is many times mistaken as control of breathing, no doubt attention is given to the breathing process but it is modified in various ways. The control of supply of various level in the body is suggested by Pranayama Anulom Vilom, Bhastrika Kapalabhati which is described as one of the 'shuddhi kriya' are useful in day to day life. This increases the oxygen to the lungs during subsequent breathing capacity, but it can be experienced by the individual that the expiratory lasts for longer time than the inspiration thereby causing more efficient carbon dioxide moving out from the body. The origin of Kabaddi can be traced to the pre-historic times. In India, Kabbadi was primarily devised as a way to develop the physical strength and speed in young men. In India, Kabaddi is popular by different names Hu-Tu-Tu, Hadudu (for men) and Kit-Kit (for women). During its inception, Kabaddi was played to boost the self-defence skills and to develop quick responsiveness to attack. It also sharpened the reflexes of counter attacks of the individuals, who mostly played in groups or teams. Kabaddi requires tremendous physical stamina, agility, individual proficiency, neuromuscular coordination, lung capacity, quick reflexes, intelligence and presence of mind on the part of both attackers and defenders. Breath control, raid, dodging and movement of hand and feet are the basic skills that one has to acquire, in order to play Kabaddi. The player has to acquire power and learn both offensive and defensive skills to excel in the game, which combines the characteristics of rugby and wrestling.

Procedure: Forty Kabaddi players served as the subjects for the study. The age ranged from 17 to 30 years. The subjects were randomly assigned as experimental and control groups, each group consisted of twenty subjects. The requirement of the study was explained to all subjects. All the subjects voluntarily agreed to undergo the testing and training programs. The vital capacity was measured. Spirometer (Helios 401). The random group design was used for the study. Two groups were made of the subjects each comprising of 20 subjects. The subjects participated voluntarily in the study. Twenty subjects (N=20) were selected for experimental group and twenty (N=20) acted as control group. The study was conducted for a period of six weeks. Two groups comprising of 20 subjects each were formed i.e. experimental group and control group under supervision of experts. The data for vital

UGC-SAP-DRS-II Sponsored 5th National Level Webinar on

Biological Tools for Sustainable Environment

27th March 2021

Dear Sir

Dr. Monica Jain

Maharaja Ranjit Singh College of Professional Sciences,
Indore, Madhya Pradesh

We are pleased to inform you that the Department of Biosciences,

Veer Narmad South Gujarat University, Surat is organizing the 5th Virtual National Level Conference on "Biological Tools for Sustainable Environment" on 27th March 2021. The Inauguration and opening ceremony of the conference will take place at 11:00 am on the 27th March 2021.

We would like to invite you as an expert of honour on this occasion. Your online session will be for approximately 45 to 50 minutes. I hope your talk in the webinar will inspire and guide students and faculties. We will be hosting the webinar on the Webex platform and share the link with you for the participation

Your kind contribution to the program will boost our morale and ignite academic zeal among the student and faculties of the south Gujarat region. We will be highly obliged for your presence and precious time for such academic-oriented activities. Your kind cooperation will be a real boost to students.

Looking forward to the further cooperation

Thanking you
